Prepared solely as a demonstration catalogue for a fictional business profile on BLinkAfric. Products, service descriptions, branches and contact details in this document are illustrative and do not represent verified commercial offers.

Welcome to Nia Living Spaces

Nia Living Spaces is a fictional home décor, furniture and interior styling brand created to demonstrate how a business can present its catalogue on BLinkAfric. Our sample collection brings together contemporary forms, warm natural finishes, layered textures and African-inspired design accents.

Our design approach

We believe a room should be practical, welcoming and personal. This sample catalogue is organised to help customers explore furniture, decorative accessories and styling services before asking questions or requesting a quotation. Final dimensions, materials, colours, availability, delivery arrangements and prices would need to be confirmed by a real business.
